

## 1.2 Importation of Frozen Meats

- Importer should apply to Livestock Breeding and Veterinary Department to issue the recommendation for the importation of frozen meats into Myanmar.
- Following documents are needed in the application.
  - (a) Import application form
  - (b) Application letter with Company letter head signed by company's director. It should be expressed meat quality, place and bio-security level of storage and sale market.
  - (c) Copy of Veterinary Health Certificate issuing by the Veterinary authority of exporting country. For chicken meat, duck meat and turkey meat, it should express free of avian influenza in exporting country.
  - (d) HACCP and GMP certificate of meat processing plant
  - (e) Performa invoice
  - (f) Sale contract
  - (g) Recommendation from Meat Inspection Board
  - (l) Copy of company registration issued by Directorate of Investment and Company Administration.
  - (h) Copy of company's import-export license issued by Department of Trade.
  - (i) Form VI
  - (j) Form XXVI
- Livestock Breeding and Veterinary Department will check the applications and issue the recommendation letter to apply the import license from Department of Trade.
- Importing fees will be charged.
- When the importer submits the Import Declaration to Custom Department, also submit to LBVD for Laboratory test using MACCS.
- On arrival of the frozen meats, official from LBVD will check the health condition of animals and also Veterinary Health Certificate and take the samples for laboratory test.
- Laboratory test result will be replied by MACCS
