Subject: replying to your enquires about Phytosanitary requirements

Dear Mr. Oleksandr,

The Central Administration for Plant Quarantine would like to take this opportunity to appreciate and support the cooperation in the field of plant Quarantine and phytosanitary issues with your service¹

- Regarding your letter kindly be informed of the following that the official Phytosanitary requirements and the regulated articles and the pest list are under the ministerial decree No.3007 for year 2001 (attached the decree and the pest list).

-Regarding the requirements for grains they are the following

- 1- Phytosanitary certificate according to the ISPM No 7&12 is required.
- 2- Additional declaration : Not intended for cultivation
- 3- Shipment found free from any live pests or diseases in the Egyptian ministerial decree No 3007 for year 2001
- 4- the consignments complying with the ministerial decree No.426 for year 2009 concerning the freedom of the cereal consignment from Ambrosia
- 5- The requirement of the plant quarantine operational committee dated 20/4/2004 regarding the maximum tolerance (25 Seed /Kg) for the noxious weed seeds content in the consignment.

- For the official Contact Point it is (ippc.egypt@gmail.com)

Thank you for your kind cooperation¹

Yours sincerely,

Islam Farahat
04-11-2015

Dr. Saad Mohamed Moussa

Олександрю Вержиховському
Заступнику голови Держветфітослужби України

Від: Д-р. Саад Мохамед Муса
Голова центральної адміністрації з карантину рослин
Міністерство сільського господарства та рекультивації земель, Каїр, Єгипет.

У відповідь на ваші запити щодо фітосанітарних вимог

Шановний пане Вержиховський!

У відповідь на ваш лист інформуємо про офіційні фітосанітарні вимоги та перелік шкідливих організмів, що зумовлені Наказом Міністерства №.3007 від 2001р. (додається наказ та список шкідників).

- Вимоги щодо зерна нижчевикладені:

1. Необхідний фітосанітарний сертифікат у відповідності до МСФЗ № 7 та № 12.
2. Додаткова декларація: не вимагається для культивації
3. Вантажі вільні від будь-яких живих шкідливих організмів або хвороб відповідно до Наказу Міністерства № 3007 від 2001р.
4. **Вантажі, що відповідають вимогам, викладеним у Наказі Міністерства № 426 від 2009 р. щодо вантажу зерна вільного від Амброзії.**
5. Вимоги Комітету з карантину рослин від 20.04.2004 щодо максимального допуску вмісту (25 насінин/кг) насіння бур'янів у вантажах.

Unrecorded pests and diseases to be declined entry into Egypt
Plant Diseases (Fungal Diseases)

<i>Olea sativa</i>	Olive
<i>Colletotrichum dematium</i> (Pers) Grove	Spongy dry fruit rot Quince rust
<i>Gymnosporangium clavipes</i> (Cooke & Peck)	Rocky mountain pear rust
<i>Gymnosporangium nelsoni</i> Arth.	White root rot
<i>Scytinostroma galactinum</i> (Fr.)	Violet root rot
<i>Helicobasidium mompa</i> Tanaka	Valsa (Cytosporra) canker
<i>Coccomyces hiemalis</i>	Botryosphaeria
<i>Valsa cincta</i> / <i>V.leucostoma</i>	Gummosis
<i>Botryosphaeria dothide</i> a/ <i>B.obtusa</i>	Dieback
<i>Gleosporium oliverum</i>	Anthracnose
<i>Cycloconium oleaginum</i>	Leaf spots
<i>Persea americana</i>	Avocado
<i>Pseudocercospora purpurea</i>	Septoria Fruit rot
<i>Colletotrichum gloeosporiodes</i>	Fruit Anthracnose
<i>Dothiorella gregaria</i> , (<i>Botryosparia ribis</i>)	Dothioella rot
<i>Sphaceloma perseae</i>	Fruit scape
<i>Fusarium</i> spp.	Fusarium Fruit rot
<i>Botryodiplodia theobromae</i>	Botryodiplodia rot
<i>Pestalotiopsis versicolor</i>	Pesalotiopsis rot
<i>Phytophthora citrophthora</i>	Phytophthora rot
<i>Akaropeltopsis</i> sp.	Akaropeltopsis rot

Table (1) cont.

**Unrecorded pests and diseases to be declined entry into Egypt
Plant Diseases (Fungal Diseases)**

<i>Diospyrus Kak</i>	Persimmon
<i>Alternaria spp. & Cladosporium spp.</i>	Leaf and fruit spots
<i>Fusarium spp. & Sclerotium sp.</i>	Rot rots
<i>Botryodiplodia theobxomae</i>	Diebaek
<i>Rhizoctonia solani, Pythium spp and Phytophthora spp.</i>	Damping off
<i>Aspergillus</i> group <i>Penicillium</i> group	Fruit rot
<i>Muntingia calabura</i>	Cherry
<i>Cercospora rubrotincta</i>	Leaf spot on sweet cherry
<i>Litchi chinensis</i>	Litchis
<i>Pestalotiopsis sp.</i>	Pest alotiopsis rot
<i>Aspergillus flavus</i> group	Aspergillus rot
<i>Peronophthora Litchii</i>	Peronophthora rot
<i>Ceuthospora litchi</i>	
<i>Pestalotia pauciseta</i>	
<i>Colletotrichum gloeosporioides</i>	
<i>Aspergillus niger</i> group	Aspergillus rot
<i>Psidium guajava var. pyriferum L.</i>	Guava
<i>Myxosporium psidii</i> <i>Gleosporium psidii</i>	Fruit rot
<i>Geotrichum candidum</i> <i>Rhizoups nigricans</i>	Pestalotia psidii
<i>Fusarium spp., Cephalosporium sp.</i>	Wilt
<i>Gleosporium psidii</i>	Anthraxes
<i>Botryodiplodia psidii</i>	Stem canker
<i>Rhizoctonia solani</i>	Seedling blight
<i>Cercospora psidii</i>	White leaf spots

Table (2)
Recorded Pests to be declined entry into Egypt

Insects and mites:

1. Insect pests:

Scientific Name	Family	Order
<i>Myiopardalis pardalina</i> (Big.)	Tephritidae	Diptera
<i>Silba virescens</i> (Macq.)*	Tephritidae	Diptera
<i>Anuraphis tulipae</i> (Boyer)	Aphididae	Homoptera
<i>Palmaspis phoenicis</i> (Ram. Rao)**	Asterolecaniidae	Homoptera
<i>Orthezia insignis</i> (Douglas)	Ortheziidae	Homoptera
<i>Nipaecoccus nipae</i> (Mask)	Pseudococcidae	Homoptera
<i>Pseudopoccus marotimus</i> (Ehr.)	Pseudococcidae	Homoptera
<i>Anarsia lineatella</i> (Zell.)	Gelechiidae	Lepidoptera
<i>Lobesia botrana</i> (Schiff.)*	Tortricidae	Lepidoptera

* Scientific name amended according to the latest nomenclature

** Species transferred to table (2)

2. Mites:

Scientific Name	Family	Order
<i>Aceria sheldoni</i> (Ewing)	Eriophyidae	Prostigmata
<i>Phyllocoptruta olivora</i> (Ashead)	Eriophyidae	Prostigmata
<i>Bryobia rubrioculus</i> (Sch)	Tetranychidae	Prostigmata

Table (2) cont.

**recorded pests and diseases to be declined entry into Egypt
Plant Diseases (Fungal Diseases)**

<i>Triticum aestivum</i>	Wheat
<i>Ustilago tritici</i>	Loose smut
<i>Hordium vulgare</i>	Barley
<i>Ustilago nuda</i>	Loose smut
<i>Oryza stiva</i>	Rice
<i>Pyricularia oryzae</i>	Blast
<i>Helminthosporium oryzae</i>	Brown spot
<i>Tilletia baraclayana</i>	Covered smut, kernel smut
<i>Ustilaginoidea virens</i>	False smut
<i>Sccarum spp.</i>	Sugar cane
<i>Ustilago scitamina</i>	Smut
<i>Beta vulgaris</i>	Sugar beet
<i>Peronospora farinose f.sp. betae</i>	Downy
<i>Solanum tuberosum</i>	Potato
<i>Altrnaria solani</i>	Early blight
<i>Fusarium solani</i>	Dry rot
<i>Helminthosporium solani</i>	Silver scurf
<i>Phoma exigua</i>	Gangerine
<i>Phytophthora erythroseptica</i>	Purple rot
<i>Phytophthora infestance</i>	Late blight
<i>Polyscytalum pustulans</i>	Skin spot
<i>Rhizoctonia solani</i>	Black scurt
<i>Verticillium alboatrum</i>	Verticillium wilt
<i>Lycopersicon esculentum</i>	Tomato
<i>Didymella lycopersici</i>	Stem rot
<i>Verticillium dahliae</i>	Wilt

Table (2) cont.

**Recorded pests and diseases to be declined entry into Egypt
Plant Diseases (Fungal Diseases)**

<i>Althernaria vitis</i> Cavara	Blight (leaf spot)
<i>Uncinula necator</i> (Schw) Burr	Bowdery mildew
<i>Armillaria mellea</i> (Vahl & Fr) kummer	Root rot
<i>Phymatotrichum omnivorum</i> (Shear) Duggar	Viticillium wilt
<i>Verticillium dahliae</i> kleb	Crown and root rot
<i>Musa paradisiaca</i> L.	Banana
<i>Fusarium oxysporum</i> f. sp <i>cubense</i> Woll - & Reink	Anthracnose
<i>Colletotrichum musae</i> <i>Fusarium</i> (Semitectum).	Pink mould
<i>Trichothecium roseum</i> Link	Root rot
<i>Botryodiplodia theobromae</i> pat	
<i>Fusarium moniliforme</i>	Mali formed Fruits
<i>Ficus carica</i>	Fig
<i>Penicillium</i> spp.	Pencillim rot
<i>Aspergillus</i> spp.	Aspergillus rot
<i>Botrytis cinerea</i>	Fruit soft rot
<i>Rhizopus nigricans</i>	Rnizopus rot
<i>Ficus carica</i>	Fig
<i>Macrophomina phaseolina</i>	Root rot
<i>Cerotelium fici</i> (cast) Arth	Rust
<i>Nectria cinnabarina</i>	Canker
<i>Fusarium</i> sp. <i>Botryodiplodia theobromae</i>	Die back
<i>Cercospora bolleana</i> , <i>Alternaria</i> sp. <i>Mycosphaerella bolleana</i>	Leaf spots

Table (2) cont.

**Recorded pests and diseases to be declined entry into Egypt
Plant Diseases (Fungal Diseases)**

<i>Armillaria mellea</i>	Root rot
<i>Fusarium moniliforme</i>	Root rot
<i>Aspergillus niger</i>	Fruit rot
<i>Fusarium oxysporum</i>	Wilt
<i>Olea sativa</i> L.	Olive
<i>Verticillium albo-atrum</i>	Wilt
<i>Spilocaea oleagina</i> (cast) Hugh	Peacockeye spot
<i>Armillaria mellea</i>	Root rot
<i>Verticillium albo-atrum</i>	Wilt
<i>Muntingia calabura</i>	Cherry
<i>Verticillium albo-atrum</i>	Wilt
<i>Fusarium oxysporum</i>	Wilt
<i>Monilinia spp.</i>	Brown rot
<i>Stigmata carpophila</i> <i>Cladosporium carpophil</i>	Corneum blight (shot hole)
<i>Alternaria spp.</i>	Leaf spot
<i>Litchi chinensis</i>	Litchis
<i>Botryodiplodia theobromae</i>	Leaf spot
<i>Fusarium spp. Rhizoctonia solani,</i> <i>Phytophthora spp. Pythium spp.</i>	Root rot
<i>Fusarium oxysporum</i>	Wilt
<i>Alternaria spp.</i>	Leaf spot
<i>Fomes ignarius</i>	Wood trees
<i>Armillaria mellea</i>	White rot
<i>Ceratostomella</i>	Root rot

Table (2) cont.

**Unrecorded pests and diseases to be declined entry into Egypt
Plant Diseases (Bacterial Diseases)**

<i>Erwinia amylovora</i>	Apple, pear, fig
<i>Agrobacterium tumefaciens</i>	Grape, fig, olive

Table (2) cont.

**Unrecorded pests and diseases to be declined entry into Egypt
Plant Diseases (Nematods)**

<i>Meloidogyne spp.</i>	Sugar cane
<i>Meloidogyne spp.</i>	Date palm
<i>Ditylenchus spp.</i>	Apple & Pear
<i>Pratylenchus spp.</i>	
<i>Xiphenima spp.</i>	
<i>Tylenchulus sp. (T.semipenetrans)</i>	
<i>Ditylenchus spp.</i>	
<i>Pratylenchus sp.</i>

Table (2) cont.

Recorded pests and diseases to be declined entry into Egypt
Plant Diseases (Viral Diseases)

	Citrus
<i>Citrus Tatter Leaf Virus (CTLV)</i>	
<i>Citrus Leaf Rugose Virus (CLRv)</i>	
<i>Citrus Vein Enation Virus (CVEV)</i>	
<i>Citrus Ring Spot Virus (CRSV)</i>	
Vitis Vinifera L.	Grape
<i>Grapevine Fan Leaf Virus (GVFLV)</i>	
	Peach, Apricot, Plum
<i>Plum Pox Virus (PPV)</i>	
<i>Prune Necrotic Ring Spot Virus (VNRSV)</i>	
<i>Prune Dwarf Virus (PDV)</i>	
<i>Tomato Ring Spot Virus (TRSV)</i>	
<i>Peach Rosette Mosaic Virus (PRMV)</i>	
<i>Arabis Mosaic Virus (AMV)</i>	
Musa Paradisiaca L.	Banana
<i>Banana Bunchy Top Virus (BBTV)</i>	

Table (3)

Pests recorded but will only be admitted after disinfection

Insect pests:

Scientific Name	Family	Order
<i>Lasioderma serricorne</i> (Fab.) *	Anobiidae	Coleoptera
<i>Stegobium paniceum</i> (L.) *	Anobiidae	Coleoptera
Egyptian members of family Anthicidae *	Anthicidae	Coleoptera
All members of family Bruchidae	Bruchidae	Coleoptera
All members of family Cicindelidae	Cicindelidae *	Coleoptera
All members of family Cleridae	Cleridae *	Coleoptera
<i>Cryptophagus affinis</i> (Sturm)*	Cryptophagidae	Coleoptera
<i>Ahasverus advena</i> (Waltl.) *	Cucujidae	Coleoptera
<i>Laemophloeus spp</i> *	Cucujidae	Coleoptera
<i>Oryzaephilus surinamensis</i> (L.)**	Cucujidae	Coleoptera
<i>Balaninus spp.</i>	Curculionidae	Coleoptera
<i>Calandra spp.</i>	Curculionidae	Coleoptera
<i>Sitona spp.</i>	Curculionidae	Coleoptera
Egyptian members of family Dermestidae	Dermestidae	Coleoptera
All members of family Dytiscidae *	Dytiscidae	Coleoptera
Egyptian members of family Histeridae	Histeridae	Coleoptera
<i>Enicmus (=Lathridius) minutus</i> (L.) *	Lathridiidae	Coleoptera
Egyptian members of family Nitidulidae	Nitidulidae	Coleoptera
<i>Typhaea stercorea</i> (L.) *	Mycetophagidae	Coleoptera
<i>Gibbium psylloides</i> (Czemp.) *	Ptinidae	Coleoptera
<i>Aphodius lividus</i> (Ol.)	Scarabaeidae	Coleoptera
All members of family Staphylinidae *	Scarabaeidae	Coleoptera
<i>Alphitobius diaperinus</i> (Panz.) *	Tenebrionidae	Coleoptera
<i>Al. Laevigatus</i> (F.) *	Tenebrionidae	Coleoptera
<i>Curmimosphena vilosus</i> (Haag.)*	Tenebrionidae	Coleoptera
<i>Gnathocerus cornutus</i> (F.) *	Tenebrionidae	Coleoptera
<i>Latheticus oryzae</i> (Wat.) *	Tenebrionidae	Coleoptera

* Species added to table (3)

** Scientific name amended according to the latest nomenclature

Table (3) cont.

Pests recorded but will only be admitted after disinfection

Insect pests:

<i>Palorus ratzeburgi</i> (Wissm.) *	Tenebrionidae	Coleoptera
<i>Tenebrio molitor</i> (L.) *	Tenebrionidae	Coleoptera
<i>Tribolium spp.</i>	Tenebrionidae	Coleoptera
<i>Zophosis abbreviata</i> (Sol.) *	Tenebrionidae	Coleoptera
<i>Z. punctata</i> (Brulle) *	Tenebrionidae	Coleoptera
<i>Tenebroides maritanicus</i> (L.)	Trogositidae	Coleoptera
All members of order Collembola	Collembola	Coleoptera
<i>Euborellia annulipes</i> (Lucas) *	Forficulidae	Dermaptera
<i>Forficula auricularia</i> (L.) *	Forficulidae	Dermaptera
<i>Labidura riparia</i> (Pall.)	Labiduridae	Dermaptera
<i>Drosophila melanogaster</i> (Meig.) *	Drosophilidae	Diptera
All members of family Phoridae *	Phoridae	Diptera
All members of family Scatopsidae *	Scatopsidae	Diptera
<i>Eristalis aeneus</i> (Scop.) *	Syrphidae	Diptera
<i>Er. Tenax</i> (L.) *	Syrphidae	Diptera
All members of family Embidae *	Embidae	Embioptera
All members of family Corixidae *	Corixidae	Hemiptera
<i>Carpocoris purpureipennis</i> (De Geer).	Pentatomidae	Hemiptera
<i>Eusarcoris inconspicuus</i> (H.S.)	Pentatomidae	Hemiptera
<i>Nezara viridula</i> (L.)	Pentatomidae	Hemiptera
<i>Bemisia tabaci</i> (Gen.)	Aleyrodidae	Homoptera
<i>Asterolecanium sambuci</i> (Ckll.)	Asterolecaniidae	Homoptera
<i>Empoasca spp.</i>	Cicadellidae	Homoptera

* Species added to table (3).

** Scientific name amended according to the latest nomenclature .

Table (3) cont.

Pests recorded but will only be admitted after disinfection

Insect pests:

Scientific Name	Family	Order
<i>Ceroplastes floridensis</i> (Comst.)	Coccidae	Homoptera
<i>C. rusci</i> (L.)	Coccidae	Homoptera
<i>Coccus hesperidum</i> (L.)	Coccidae	Homoptera
<i>C. longulus</i> (Douglas)	Coccidae	Homoptera
<i>Eulecanium berberidis</i> (Schr)	Coccidae	Homoptera
<i>Kilifia acuminata</i> (Sign) **	Coccidae	Homoptera
<i>Pulvinaria psidii</i> (Mask.)	Coccidae	Homoptera
<i>Saissetia coffeae</i> (Wlk.) **	Coccidae	Homoptera
<i>S. (= Parasaissetia) nigra</i> (Niet.)	Coccidae	Homoptera
<i>S. oleae</i> (Bern.)	Coccidae	Homoptera
<i>Aspidiotus destructor</i> (Sign.) ***	Diaspididae	Homoptera
<i>A. hederæ</i> (Vall.)	Diaspididae	Homoptera
<i>Aonidia lauri</i> (Bouche)	Diaspididae	Homoptera
<i>Aonidiella aurantii</i> (Mask.)	Diaspididae	Homoptera
<i>Aulacaspis rosae</i> (Bouche)	Diaspididae	Homoptera
<i>Au. Tubercularis</i> (Newstead) **	Diaspididae	Homoptera
<i>Chionaspis striata</i> (Newm.)	Diaspididae	Homoptera
<i>Chrysomphalus aonidium</i> (L.) **	Diaspididae	Homoptera
<i>Ch. dictyospermi</i> (Morg.)	Diaspididae	Homoptera
<i>Ch. Personatus</i> (Comst.)	Diaspididae	Homoptera
<i>Diaspis boisduvalii</i> (Signoret)*	Diaspididae	Homoptera
<i>D. bromeliae</i> (Kern.)	Diaspididae	Homoptera
<i>Dynaspidiotus britannicus</i> (New.) **	Diaspididae	Homoptera
<i>Hemiberlisia cyanophylli</i> (Sign.)	Diaspididae	Homoptera
<i>H. latania</i> (Sign.)	Diaspididae	Homoptera
<i>H. rapax</i> (Comst.) ***	Diaspididae	Homoptera

* Species added to table (3).

** Scientific name amended according to the latest nomenclature .

*** Species transferred to this table from another table .

Table (3) cont.
Pests recorded but will only be admitted after disinfection

Insect pests:

Scientific Name	Family	Order
<i>Lepidosaphes ulmi</i> (L.)	Diaspididae	Homoptera
<i>Melanaspis inopinata</i> (Leon.) **	Diaspididae	Homoptera
<i>Parlatoria blanchardii</i> (Targ.)	Diaspididae	Homoptera
<i>P. oleae</i> (Colv.)	Diaspididae	Homoptera
<i>P. pergandii</i> (Comst.)	Diaspididae	Homoptera
<i>P. proteus</i> (Curt.)	Diaspididae	Homoptera
<i>P. ziziphus</i> (Lucas.)	Diaspididae	Homoptera
<i>Pseudaulacaspis pentagona</i> (Targo.) **	Diaspididae	Homoptera
<i>Quadraspidotus ostraeiformis</i> (Cu.) **	Diaspididae	Homoptera
<i>Icerya aegyptiaca</i> (Douglas)	Margarodidae	Homoptera
<i>I. purchasi</i> (Mask.)	Margarodidae	Homoptera
<i>I. seychellarum</i> (Westwood)***	Margarodidae	Homoptera
<i>Eriosoma lanigerum</i> (Hausm.)	Pemphigidae	Homoptera
<i>Phoenicoccus marlatti</i> (Cock.) **	Phoenicoccidae	Homoptera
<i>Dysmicoccus brevipes</i> (Cock.)	Pseudococcidae	Homoptera
<i>Ferrisia virgata</i> (Ckll.) **	Pseudococcidae	Homoptera
<i>Maconellicoccus hirsutus</i> (Green)	Pseudococcidae	Homoptera
<i>Nipaecoccus vastator</i> (Mask.)	Pseudococcidae	Homoptera
<i>Planococcus citri</i> (Risso)	Pseudococcidae	Homoptera
<i>Pl. vitis</i> (Niet.)	Pseudococcidae	Homoptera
* <i>Pseudococcus longispinus</i>	Pseudococcidae	Homoptera
<i>Trionymus lounsburyi</i> (Brain)	Pseudococcidae	Homoptera

* Species added to table (3).

** Scientific name amended according to the latest nomenclature .

*** Species transferred to this table from another table .

Table (3) cont.
Pests recorded but will only be admitted after disinfection

Insect pests:

Scientific Name	Family	Order
<i>Cossus L. niger</i> (B.Backer.) *	Cossidae	Lepidoptera
<i>Zeuzera pyrina</i> (L.)	Cossidae	Lepidoptera
<i>Phthorimea oberculella</i> (Zell.)	Gelechiidae	Lepidoptera
<i>Sitotroga cerealella</i> (Oliver)	Gelechiidae	Lepidoptera
Egyptian members of family Geometridae	Geometridae	Lepidoptera
<i>Virachola livia</i> (Klug.)	Lycanidae	Lepidoptera
<i>Lyonetia clerkella</i> (L.) *	Lyonetiidae	Lepidoptera
<i>Cryptoblabes gnidiella</i> (Mill)	Pyralidae	Lepidoptera
<i>Ectomyelois ceratonia</i> (Zell.) **	Pyralidae	Lepidoptera
<i>Ephestia spp.</i> *	Pyralidae	Lepidoptera
<i>Galleria mellonella</i> (L.)	Pyralidae	Lepidoptera
<i>Palpita unionalis</i> (Hubner) **	Pyralidae	Lepidoptera
<i>Plodia interpunctella</i> (Hb.) *	Pyralidae	Lepidoptera
<i>Pyralis spp.</i>	Pyralidae	Lepidoptera
Members attacking woolen material from family Tineidae	Tineidae	Lepidoptera
<i>Cydia pomonella</i> (L.)	Tortricidae	Lepidoptera
All members of order psocoptera *	Tortricidae	Psocoptera
<i>Haplothrips cahirensis</i> (Tryp.)	Phlaeothripidae	Thysanoptera
<i>Taeniothrips simplex</i> (Morison) **	Thripidae	Thysanoptera
<i>Thrips tabaci</i> (Lind.)	Thripidae	Thysanoptera
All members of order thysanura *	Thripidae	Thysanura
All wood borers	Different	Different

* Species added to table (3).

** Scientific name amended according to the latest nomenclature .

Table (3) cont.

Pests recorded but will only be admitted after disinfection

Mites:

Scientific Name	Family	Order
<i>Rhizoglyphus echinopus</i> (Fum. & Robin)	Acaridae	Astigmata
<i>Eriophyes pyri</i> (Pgst.)	Eriophyidae	Prostigmata
<i>Er. vitis</i> (Pgst.)	Eriophyidae	Prostigmata
<i>Brevipalpus californicus</i> (Bankes)	Tenuipalpidae	Prostigmata
<i>Br. obovatus</i> (Donn.)	Tenuipalpidae	Prostigmata
<i>Br. Phoenicis</i> (Geijskes)	Tenuipalpidae	Prostigmata
<i>Cenopalpus lanceolatisetae</i> (Attiah)	Tenuipalpidae	Prostigmata
<i>Ce. Pulcher</i> (C. & F.)	Tenuipalpidae	Prostigmata
<i>Eutetranychus africanus</i> (Tucker)	Tetranychidae	Prostigmata
<i>Eu. Orientalis</i> (Klein)	Tetranychidae	Prostigmata
<i>Panonychus ulmi</i> (Kock) ***	Tetranychidae	Prostigmata
<i>Tetranychus curcurbitacearum</i> (Sayed)	Tetranychidae	Prostigmata

*** Species transferred to this table from another table .
